**St. Mary's School
is a safe and happy place,
where we follow Jesus by
living, loving, learning
and working together.**

Our school family aims to understand and follow the example set by Jesus.

We will achieve this by:

- Using the Archdiocesan syllabus to underpin all school policies and practices.
- Developing self respect and respect of others.
- Setting good examples of positive behaviour.
- Encouraging and rewarding honesty and integrity.
- Listening to each other.
- Enabling all to contribute.
- Enabling all to recognise their actions and resulting consequences.
- Providing quality opportunities for silent prayer and/or reflection.
- Facilitating opportunities for helping others.

Our school family aims to fully develop the potential of everyone within our school community.

We will achieve this by:

- Providing a broad, balanced and creative curriculum, accessible by all.
- Having rigorous and robust assessment procedures which drive teaching and learning.
- Seeking enrichment opportunities.
- Celebrating success and achievement at every level.

Our school family aims to work together with our families and parish to be an integral part of the wider community.

We will achieve this by:

- Actively seeking out opportunities to promote the school as part of the wider community.
- Actively seeking out opportunities to enrich the local and wider community

- By encouraging links with the parish and families
- Involving local community in school/parish events.
- Making effective use of visitors to enhance the children's learning.
- Developing means of communication e.g. newsletters, reports, parent evenings and websites.

Structure

Subject leaders will follow the programme outlined for focus on their subject area and will ensure that completed documentation is given to the Headteacher by the deadlines identified. They will keep a record of their work in their 'Subject Leader File' and discuss this with the Headteacher as necessary. They will report to the Curriculum Committee as part of the programme of Curriculum Monitoring about standards within their subject area. They will refer to their Subject Leaders' job description to ensure all aspects of their responsibility are met. Their contribution to School Improvement as a subject leader will form an important part of annual Performance Management discussions.

Planning

The programme of Curriculum Monitoring is based on a cycle. The Core Subjects (English, maths, science, ICT and RE) will be reviewed annually; other subjects will be reviewed every two years.

Assessment, Reporting and Recording

Subject Leaders will make use of a range of information to inform evaluation of their subject areas, for example: children's work, National, 'benchmarked' and school SAT data, teachers' plans and records, observation notes, pupil interview or surveys etc. This may be collected by the Subject Leader themselves, or from class teachers, or the Headteacher. Analyses of data will be kept in the 'Subject Leader's File' and discussed with all staff in designated Staff Meetings.

SEN

As part of their monitoring, Subject Leaders will need to ensure colleagues are able to provide for children with Special Needs in their subject area and may need to liaise with the SENCO to discuss particular needs of children, or special resources available.

IT

As part of their monitoring, Subject Leaders will need to ensure colleagues are able to provide opportunities for the use of IT within their subject area and may need to liaise with the IT Subject leader to discuss resources available.

Resources

To ensure effective delivery of their subject area, Subject Leaders will need to ensure that teachers' planning can be adequately resourced. When schemes of work are reviewed, Subject Leaders will check resources available and order new equipment, if necessary. Each curriculum area is given a budget every financial year, and the Action Plan produced by the Subject Leader outlines how available funding is to be spent.

Monitoring and evaluation

Subject Leaders will keep a record of work in their 'Subject Leader's File' and discuss their evaluation with the Headteacher. A chronology of action summarising work carried out/action taken and will be kept in the front of the file. The Action Plan will be reviewed and evaluated in consultation with the Headteacher. Subject Leaders will report to the Curriculum Committee as part of the programme of Curriculum Monitoring about standards within their subject area – this will help to inform the Governors in preparation for the Annual Report to Parents.

Subject Leadership Monitoring Programme 2014/15

During monitoring, Subject Leaders may carry out a ‘walkthrough’, i.e. visit a cross-selection of lessons to see the work children are doing or carry out other monitoring activities e.g. work scrutiny. From observing children and talking to them about their work and looking at books or other work, Subject Leaders will need to find out:

- Are lesson objectives clear?
- Do the tasks given to children relate to the objectives?
- What standard are the children working at?
- Are children making good progress throughout the school?
- Are children clear about the level they are achieving?
- Do they know what they do well and what they need to do to improve?
