

## Reception News Friday 2<sup>nd</sup> February

Hello all,

This week we received a postcard from Jet who needed our help. His friend Rob the Robot had heard all about our delicious toast we have for snack and wanted to find out how to make some. So we have been writing instructions for him. First we made some toast by ourselves and then went on to write down how we made it. We know it's very important to follow instructions in the right order. Miss Davies got all muddled up and said you buttered the bread first and then toasted it. It's a good job we're so good at writing and showed her the right way 😊

We really liked playing the instructions game with our friends. We had to post our written instructions into the instructions machine and press 'go' and our friends had to follow them. It was such good fun.

In maths, we have spent a little bit more time on money. All the money games we played for our homework has really helped us to recognise the coins. It is still a bit tricky when the coin has no number on it but we're trying very hard.

### 3 days left!

We are SO excited to see our chicks hatch on Monday. Miss Davies thinks we'll be too excited to do anything except watch the chicks all day long 😊

### Sharing Assembly – Monday 4<sup>th</sup> Feb.

We're looking forward to showing you how we get on with our friends and how we are learning to mend our friendships when we come across a problem. See you Monday afternoon!

### House Points and Show and Tell

No house points celebration or show and tell this week as we had a very special assembly for Mrs Webster to say goodbye to her.

### Questions...

Miss Davies has read all of our questions about things we would like to find out and we have made a start on finding the answers. We are enjoying using the internet to find pictures, video clips on YouTube and looking through our information books.
