

Reception News Friday 9th February

Hello everyone

All of our space activities went straight out of the window as soon as we discovered our eggs had hatched over the weekend. We have loved watching the chicks grow and we can't believe how quickly they have changed. But we sadly said goodbye to them this afternoon.

We have had the opportunity to write all about our chicks this week. Have a look at some examples in our photos.

We had been looking at adding in maths and have been working on reading and understanding number sentences like $5+4$. We did this to help get the aliens on the rocket and find out how many were on the rocket altogether.

Phonics and reading books

We have one sound left to learn before we do our phonics assessments after half-term. Miss Davies says it will be helpful to practise all our sounds and tricky words – in particular I, no, go, to, the, he, be, me, she, we. We also have new home readers to keep us going over half-term.

Show and Tell

We heard from Heidi who showed us her fabulous hand-stitched cushion. We admired a friendship bracelet and were wowed by two rockets and a fabulous collage. We read a diary entry from a special diary and we heard all about an upcoming trip to Disney Land Paris – how excitinal

House Points

Well done everyone!

Matthew – Annabelle

Mark – Tristan

Luke – Emily

John – Grace

Good work!

Well done to Andrew. He painted a fabulous picture. He mixed different paints to create the colours he needed 😊

Have a fab
half-term
everyone!
