

When I look into my future...

What do you think you will be doing in 5, 10 and 20 years time?

Fill in the table to create a timeline of yourself.

In 5 years

How old will I be?

I will be at...

(school/college/university/work/other)

I will be doing...

(Think about: Which subjects you will be studying, what your hobbies and interests might be)

In 10 years

How old will I be?

I will be at...

(school/college/university/work/other)

I will be doing...

(Think about: Will you be at university, doing an apprenticeship, at work or even living abroad? What will you be studying or doing in your job?)

In 20 years

How old will I be?

I will be at...

(school/college/university/work/other)

I will be doing...

(Think about: what job you will be doing? Where you will live? Will you be studying?)
