

Scientists wear a white cloak.

We sometimes record our results in a graph.

Scientists tie back their hair.

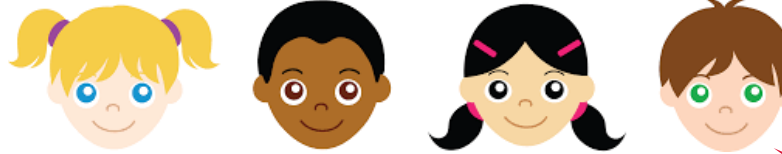

Science is where you do experiments and test things to see if they work.

Science is fun!

The teacher gives us a table to record our results in and once I designed my own table.

I can't remember any famous scientists

I remember when the science people came and did experiments in the junior hall, turning the umbrella yellow.

Subject: Science

What our children said ...

I love doing maths in science.

Scientists must wear goggles.

I loved it in science week when we came dressed as scientists.

Science is discovering new things and finding things out.

We draw pictures and write words to say what we have done.

Science is great when it brings up odd results or anomalies and you have to try and explain them.

Scientists have gloves for touching stuff.

Sometimes, Science is hard, but the teacher helps us if we don't understand.
