

I use maths when I go to the shops and buy things.

Some questions can be tricky and make you think hard.

The books are colourful and the pictures help me work things out.

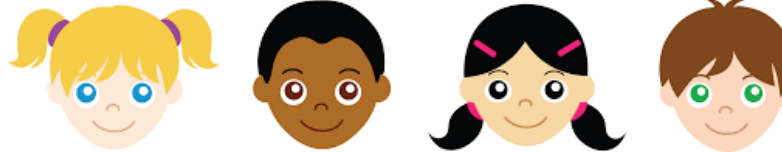

I like seeing lots of ticks on my work so I know I've done well.

I don't like when questions are too difficult and I can't work it out by myself.

I use maths to work out how far I have travelled on my bike.

Maths is my favourite subject.

I like competing against the girls on TTRS.

**Subject: Maths**

I use maths when I go to the shops and buy things.

**What our children said ...**

I love playing games in maths.

I wish we could play more games.

I really like being able to play games on the TV in class.

Teachers always help you find the answer without giving it to you.

I really enjoy making my monster grow on Monster Multiplication.

I like when we mark our own work because I can see what I have got right and wrong straight away.

My favourite game to play is the elimination game because you can challenge your friends while learning your times tables.

I like using ten frames to help me add.
